

Foundation Course Report

Event Name: Poster Designing

Date: 5 March 2025

Organized by: Club of Knowledge

About the Event:

The Poster Designing activity was held as a part of our foundation course. The task was to design a poster on the theme “Colors of India” using Canva. It was an engaging and imaginative session that encouraged us to express ideas through visual design while celebrating India’s rich cultural diversity.

What I Learned:

- I gained hands-on experience with Canva, including using templates, customizing fonts, adding design elements, and utilizing editing tools.
- The activity boosted my creativity and ability to think visually, particularly when working with cultural concepts.
- I learned how the use of layout, color schemes, and content arrangement significantly impacts the overall design.
